

KAROL G

Whoever tells you that an emptiness is filled with another person is
lying to you
It's like covering up a wound with make-up
You can't see it, but you can feel it
You left, saying that you were over me
You found a new girlfriend
What she doesn't know is you're still looking at all my stories

CHORUS

Baby, what happened?
Weren't you in love?
What are you doing looking for me if you know that I don't repeat
mistakes
Tell your new baby that I don't compete for men

SHAKIRA

Seeing you with the new girl hurt me, but I'm now focusing on me
I've forgotten about what we lived together and that's what has offended
you
My life has even got better, I swear you're no longer welcome
And what your girlfriend threw at me, that doesn't annoy me or make me
laugh

KAROL G

I don't have time for something that doesn't do anything for me
I changed my route
Making money like sport
Filling my account, the shows, the car park, the passport
I'm tougher, the reports say

SHAKIRA

Now you want to get back together
I can tell, I don't know, you wait there 'cos I'm not an idiot

KAROL G

You forgot that I've moved on
And that with this girl you were out of your depth

CHORUS (...)

SHAKIRA

You left, and I got triple 'm'
Much hotter, much tougher, much lighter

KAROL G

I'll never get back with you
You are bad luck, because now blessings are raining down on me

And you want to get back together, I knew it
You liked a photo of mine

SHAKIRA

You, looking to eat out
Me, saying that it was monotony
And now you want to get back together, I knew it
You liked a photo of mine

KAROL G

You look happy with your new life
But... if she knew that you still look for me

CHORUS (...)

SPOKEN

My love, you really distanced yourself
And I can't see so far away, baby

TQM [I love you a lot], but TQG [You were out of your depth]...
